25X1 SOURCE [REDACTED]

A member of the kaserned police unit in APOLLENSDORF (N 52/E 37) stated that his unit is being trained with T34 tanks and armored reconnaissance cars under the supervision of Soviet officers.

25X1 [REDACTED] Comment:

a. In November 1949 another source (C) reported that a Soviet Zone police school is located in APOLLENSDORF. The school with a personnel of about 1,000 is allegedly commanded by LANGWALGER (rank unknown).

b. A previously submitted list of police schools subordinate to the Verwaltung fuer Schulung (Department of Training & Indoc-trination)** which are believed to be the foundation of the future Soviet Zone German Armed Forces, does not list a police school in APOLENSDORF *. However, source pointed out that the list of police schools was incomplete and that 50 police schools are said to be located in the Soviet Zone of Germany.

c. The APOLLENSDORF kaserned police unit is believed to be a police school subordinate to the Department of Training and Indoc-trination of the Soviet Zone Government.
